

Press Release For immediate release

Nomination of Marilie Pelletier to the position of interim advisor for Central Quebec

Saint-Hyacinthe, 10 January 2020 - Holstein Québec is proud to introduce Marilie Pelletier as interim advisor for Central Quebec, taking over from Roxanne Montplaisir for the duration of her maternity leave. Marilie will begin work on 13 January 2021 and be integrated gradually into the activities of Holstein Québec during a transitional period with Roxanne Montplaisir, who will be away on maternity leave as of February 22.

A graduate of the Institut de technologie agroalimentaire, La Pocatière campus, in animal production, Marilie is currently working towards a certificate in animal production at Université Laval. Motivated to develop her expertise in the field, she has worked on a number of dairy farms. A native of the Lower Saint-Lawrence region and now living in the Lotbinière area, Marilie shows a keen interest in working with Quebec Holstein breeders, taking part in the development of the breeding industry and contributing to the services of Holstein Québec.

Combined with her technical know-how, Marilie's readiness to address challenges and her ability to interact easily with producers make her a valuable and welcome addition to our team.

In her advisory capacity, Marilie will be responsible for following up with the Holstein clubs in the Central Quebec region, visiting Holstein members, and providing support for Holstein Québec events. You can reach her as of now using the contact information provided below.

We wish Marilie a warm welcome to Holstein Québec. As well, we take this opportunity to wish our colleague Roxanne a wonderful maternity leave and much happiness in her new role as a mother.

Marilie Pelletier
Advisor for Central Quebec
